Dear Sir

This is to certify that we, Adithya Ferro Alloys (P) Ltd, have purchased and have been using the GLW HYDRAULIC / GEAR OIL PURIFINER of Model # GHH180H NON - PRESSURIZED System for our Steel Rolling plant located at Karaikal.

We are certainly impressed and satisfied with the performance of the system, taking into consideration the nature of our plant we are running, where gear oil is very easily contaminated with water and other solid contaminants. With this system now, not only have we managed to extend our oil drain periods by a minimum 2 times safely, we have also saved a very significant amount on our operational costs.

We will like to highly recommend this system especially to steel rolling mills, where consumption of Hydraulic / Gear oil is very high.

We would also like to thank PES India for their excellent service and hope to receive your continual support.

Thanking You

Yours faithfully
For ADITHYA FERRO ALLOYS (P) LTD
