To whom so ever It may concern

We have installed the GLW Oil Purifier Canister of Model#FS4000 in Our Caterpillar Generator of Model No.3412 and Capacity 600 Kva, on 28th December 2009.

After six months Total running hours crossed nearly 1000 Hours and during this period we saved about Three Times oil drain cost and the Filter is working great and GLW Filter made the Generator run much smoother and easier to start because it allows better Oil flow to the Engine and no doubt to get a GLW By-Pass Oil Purifier will cut down your oil drain cost

Thanks for a great product that was easy to install and reduces the carbon print

Thanking you

Yours Faithfully

[K.SURESHKUMAR]
Technical Director
